

This intensive & in-depth three-day program shows you how to adopt proper techniques & practices for the real-world environment with completely updated material & more emphasis on the latest technology. It includes overall system design, field service & troubleshooting skills, the latest Copeland compressor technology & applications, & a valuable failure analysis hands-on tear-down. Results include better customer service, more accurate diagnosis & more effective repairs to eliminate costly callbacks & increase technician productivity.

COURSE AGENDA

Day 1

- Good service practices
- System components
- Refrigerants & oils
- Compressor fundamentals

Day 2

- Refrigerant-cooled compressors
- Reciprocating/Welded compressors
- Scroll compressors
- Air-cooled compressors

Day 3

- Mechanical causes
- Teardown & analysis of failure
- Corrections
- Motor applications

WHAT TO EXPECT

- Completely updated material
- Includes latest technologies & regulations
- Engaging multimedia training visuals
- Emphasis on field service & troubleshooting skills
- Led by industry-recognized Emerson instructors
- Comprehensive take-home participant manual
- FREE online access to reference materials, apps & more
- **24 Hours of NATE-recognized continuing education credit**

CLASS DETAILS

DATE: March 19th - 21st 2024

TIME: 8am - 5pm

LOCATION: RSD Draper
12654 S 125 East

COST: \$600.00 Per Person

Breakfast & Lunch Provided

RSVP

Name: _____

PO #: _____

Company: _____
