TUC-30

Fujitsu E.T.S.D. Training

RSD is hosting an Electronics Testing & System Diagnostic Training (ETSD) class with Fujitsu. It will provide an in-depth troubleshooting for Airstage H-Series Inverter systems. This will be a hands-on course on DC controls and circuits with diagnosis and testing of Fujitsu outdoor unit circuit boards. Students will need to bring a digital multi-meter and be capable of specific component testing, which can include diode check function and a 4-10 mega-ohm testing capability.

SPACE IS LIMITED!

- Thursday, November 19th, 2026
- 8:00am to 3:00pm at the Tucson training center
- 2055 E 19th St., Tucson, AZ
- Presented by Nick Osadchuk of Fujitsu
- Sales and service handouts / Training certificate
- Continental breakfast and lunch will be provided
- Cost: $30 per person / No refunds for absentees
